PROFESSIONAL EXPERIENCE

Software Developer (Full Stack)
Just Focus Pty Ltd, Melbourne, Victoria, Australia

2017 – 2022

- Engineered and oversaw the MySql databases serving as the backbone for both existing and in-development web and desktop platforms.
- Developed and executed the build, trial, troubleshooting, documentation, and deployment of a lead management application for Just Focus Pty Ltd, applying expertise in web technologies such as jQuery, CSS, HTML, JavaScript, and React.
- Collaborated with users to enhance system efficiency and ease of use, refining the front-end and Back-end features.
- Performed upkeep on current web applications, executing both small tweaks and significant updates as needed using JQuery, PHP, and React.js.

Software Engineer (Full Stack)
Central Finance Company Plc, Colombo, Sri Lanka

2014 – 2016

- Created, tested, debugged, documented, and implemented lead management software for Central Finance Company, utilising skills in ASP.Net and other web technologies like jQuery, CSS, and HTML.
- Worked directly with end-users to maximise efficiencies and user friendliness by fine-tuning the front-end functionality.
- employed strong communication skills to "train the trainers."
- Maintained existing computer web applications by making minor and major modifications as required using JQuery, PHP, and React.Js.
- Developed and maintained MySql and Oracle databases, which are used by the existing and under development web and desktop applications.

Software Engineer (Full Stack)
Dipro Information Systems (Pvt) Ltd, Colombo, Sri Lanka

2010 – 2014

- Developing JavaScript and JQuery functions to meet the specific requirements.
- Played the role of C# developer for implementing functionalities.
- followed by timely and efficient delivery with continued integration and deployment.
- Hands-on experience in the design and development of end-user applications using HTML, CSS, JavaScript, and PHP
- Writing end-user documentation.
- Fluent in SQL queries and building databases using MySQL and Oracle
